

Aurora: Leonardo da Vinci **A work of art dedicated to an unforgettable Maestro**

A real jewel for collectors and admirers all over the world. **The Leonardo da Vinci pen, created by Aurora**, historic company producing high quality writing instruments, is a tribute to the greatest genius of all time. A line of unequalled beauty and technical perfection, in which writing, art and science all come together. *Leonardo* has been produced in **a limited edition of only 1919 pieces**, recalling the year the company was founded.

The *Leonardo* pen has an elegant barrel in Bordeaux resin and a **goldplated cap** with lacquer filled engravings drawn from the Maestro's codex on the flight of birds.

Elements conveying the uniqueness of this pen include the **gold-plated head** of the cap and the **clip**, characterised by an original joint movement, which, in the design conceived by Giampiero Bodino, reevokes a Leonardian sketch regarding the flight of birds.

The **nib**, in 18kt gold, tapered and elegant, has a finely shaped handmade joint in black resin. Hidden in the gold-plated base, moreover, this Aurora jewel hides a new extraordinary **lever loading** mechanism.

Such a precious object could of course only be presented in a **refined case**, made of wood and satin, complete, on the inside, with a **customised paperweight**.

Leonardo da Vinci is another contribution of Aurora to the celebration of great supporters of Italian culture. Those who are thrilled at the sight of beauty are those who know how to pay tribute to those who express it.

Aurora is a leading company in the production and sale of quality writing instruments and fine leather goods. Founded in Turin in 1919, Aurora has become part of the history of writing instruments, thanks to its ability to combine leading edge design and the best Italian craftsmanship. A rich cultural legacy and a long tradition of success have made Aurora's writing instruments and leather goods true masterpieces of Italian craftwork, recognised and esteemed the world over.
