

STYLE RESIN Collection

THE STYLE IS IN THE ESSENCE

Colour, dynamism and modernity: these are the characteristics of the new Aurora collection designed for young people who are keen on fashion and interested in innovative design.

The **STYLE RESIN** range interprets their desires with a collection of pens that combine the use of lightweight materials with new colour tones: the result is fresh, fun and casual.

To have a different product everyday to match your look and needs, the **STYLE RESIN** collection includes a complete and varied range of “ready-to-wear” writing instruments for day and night.

The exclusive head decorated with the oval Aurora logo will soon become a status symbol to be shown in the pockets of jeans or on the desks of young professionals.

SPICY LOOK

Available in the fountain pen with steel nib, ballpoint pen and rollerball pen versions, the new **STYLE RESIN** range has a resin cap and barrel and a spicy heart.

In the **MUSTARD** version the ring, clip and exclusive oval Aurora logo on the head are gold-plated; in the **PAPRIKA** and **BLACK PEPPER** versions the ring, clip and oval logo on the head are chrome-plated.

PACKAGING

Simple yet stylish, the **STYLE** collection comes in a wood-effect presentation case with white imitation leather lining.
