

Aurora limited production collection

“SOLE AUREA MINIMA”: STROKES WITH THE BRILLIANCE OF LIGHT

This is the new Aurora collection dedicated to the celestial body that is the symbol of life. Brilliant colours, an original compact size, ideal for dynamic people who appreciate style and fashion.

Aurora presents its new limited and numbered collection, SOLE AUREA MINIMA, a restyled version of one of its most famous editions that stands out for its charming, contemporary style.

Its compact size (one of the smallest available on the market) makes this a particularly handy collection, ideal for diaries and organisers, small handbags, clutch bags and jacket pockets.

Even the material chosen for this range of products is original: the cap and body are in marbled yellow Auroloide, an exclusive Aurora material that gives the collection its warm amber-coloured tones.

Features

The SOLE AUREA MINIMA is a limited production collection of just 750 fountain pens and ballpoint pens, 550 rollerball pens (with a sun design engraved on the clip) and 350 mini sketch pens. The number that makes this series unique and precious is engraved on the head.

The fountain pen, one of the smallest piston refill pens in the world, is made even more precious by the 18 Kt. solid gold nib.

The ballpoint pen has a twist mechanism for gradually releasing the tip.

The rollerball pen is specially designed to produce an even, smooth and elegant ink flow.

The sketch pen comes in an original jewel version: it includes an elegant rubber cord with a clasp in gold-coated silver so that it can be worn as a pendant. A touch of style for the sophisticated woman with a taste for originality in fashion. A small rubber is hidden away inside the bottom of the sketch pen.

Packaging

The pens in the SOLE AUREA MINIMA collection come in a special box with a yellow base and black cover, made precious by the decoration featuring the symbol of the collection. The presentation case is a small box made of yellow imitation leather with a beige velvet lining.
